About the programme Erasmus+

Je moet social media cookies accepteren om deze video te kunnen bekijken.

[Klik hier](#) om je cookie-instellingen aan te passen.

The programme Erasmus+ gives people the opportunity to study, train, undertake work experience and volunteer abroad with the aim of boosting skills and employability, particularly amongst young people, in The Netherlands.

Erasmus+ also supports transnational partnerships among Education, Training and Youth institutions and organisations to foster cooperation and bridge the worlds of Education and work in order to tackle the skills gaps we are facing in Europe. It also supports Dutch national efforts to modernise Education, Training and Youth systems.

In the field of sport, Erasmus+ funding supports projects that result in the development, transfer and implementation of innovative ideas and practices in sport at European, national, regional and local level. It also aims to increase cooperation between sporting organisations and tackle issues such as intolerance, discrimination, doping and match-fixing in sport.

What funding is available?

Decentral: run by the [Dutch National Agencies Erasmus+](#):

- Education and Training funding opportunities
- Youth funding opportunities

Central: run by the European Commission's [Education, Audiovisual and Culture Executive Agency](#) (EACEA):

- Sport funding opportunities
- Jean-Monnet activities
- Other activities for Education and Training or Youth funding

Impact

Anyone who is familiar with Erasmus+ will also be familiar with the term "impact". This term also gives rise to many questions, however. What exactly does it mean for your project? How can you ensure that a project has the largest impact possible? We would like to help you achieve this

TREE

Micro and Project-based learning for Teaching ciRcular Economy and Ecological awareness in VET schools (TREE)

The goal of the project is to increase the employability of VET students in the process of change towards a more **sustainable and circular economy** and to make them aware of the environmental issue, by providing them with skills and knowledge related to those themes.

Target groups: VET students and teachers

Stakeholders: VET institutions, VET teachers, NGOs in the environmental and educational sectors, green and circular companies.
